

A LITTLE BACKSTORY

We are two Chicago-based women encouraging people to have real face-to-face conversations one snap at a time. ChattySnaps'® universal appeal has people talking to one another across generations and genders. A patented unique design means no more getting stuck and no more holes in your clothes.

Constantly evolving art allows you to express yourself, share who you are, show what you're in to, commemorate where you've been and boast where you're going.

ChattySnaps® are clever icebreakers, have a retro cool vibe, and are irresistibly tactile.
